Ontario SPCA Microchip Clinic

Every year thousands of pets in Ontario go missing and many do not find their way home. Protect your furry friends by providing them with microchip identification. This permanent identification will allow finders to easily identify your pet should an accidental escape occur by providing them with important information to allow your dog or cat to be returned quickly and safely to you.

Protect your pet by attending one of the Microchip Clinics being held at the York Region Branch of the Ontario SPCA. The clinics will be held at the shelter from **12:00 – 4:00 pm** on the following dates.

February 27, 2010
March 27, 2010 **April 24, 2010**

For more information contact the Adoption Center at **905-898-7122 Ext. 306**
